Dr. Myron L. Toews
Department of Pharmacology
University of Nebraska Medical Center
Omaha, NE 68198-6260

Dear Dr. Toews,

Dr. Diane Henshel attended several of my seminars, and I have known her as a personal friend, but I had no opportunity to judge her performance in actual research.

She was a very attentive and highly motivated student who asked more sensible questions than anybody else. She is highly intelligent and definitely committed to her work.

She is mature, personable and she gets along very well with her colleagues and younger students. I recommend her without qualifications.

Sincerely,

VH:im

Viktor Hamburger
