

The letter I wrote, III/28/96

Dear Rita, thank you very much for your letter and the collection of your reprints. I appreciate the dedication of his volume to me.

I was terribly sorry to hear about the loss of most of your ~~vision~~ eyesight. I am very much aware of the fact that since I am mostly alone, reading keeps me going, and without it life would be hard to bear. My eyesight was saved by 2 cataract operations. I hope you can keep what is left for the rest of your life. I am much impressed by the many activities which you continue to carry on. Despite your handicaps.

I was greatly saddened by the recent death of my sister-in-law in London. She had a heart attack at home and fortunately was spared much suffering. My old friend Jimmy Opendeimer, ~~who~~ has been lately connected with the ~~Bay~~ ~~Moor~~ ~~and~~ ~~also~~ ~~is~~ ~~so~~ ~~far~~ ~~well~~ ago of cancer, in Philadelphia. Indeed, one wonders how life can go on for so long, warmest wishes. Victor
