Dr. Konrad Lorenz
MPI für Verhaltensphysiologie
8131 Seewiesen über Starnberg (Obb.)
Germany

Dear Professor Lorenz:

First of all, I should like to congratulate you on your election as a foreign member of our National Academy of Sciences. I have been a great admirer of your work, and I was very happy to be able to participate in your election last week.

I shall be very glad to accept your kind invitation to visit you in Seewiesen. I shall be in Europe during the first half of September, and we can make definite arrangements later. I am sending you several reprints under separate cover.

Very sincerely,

Viktor Hamburger
Professor
