

July 6, 1966

Professor Konrad Lorenz
Max-Planck-Institut
for Verhaltensphysiologie
8131 Seewiesen
Germany

Dear Professor Lorenz:

Thank you very much for your kind letter. Concerning my travel plans: I have a Conference in Geneva from September 12 - 16, and I have to return to St. Louis on the 17th for the beginning of the semester. The latest date for my visit to Seewiesen would be Thursday, September 8 and perhaps part of Friday, September 9. I would like to be in Geneva over the weekend of September 10. I shall be on vacation in Switzerland during the last week of August and could get to Seewiesen without too much difficulty. However, I would not want you to cut short your vacation under any circumstances, and I would rather postpone my visit to next spring than to see you return to your Institute before your vacation time is up. I'll be in Europe again in June, 1967.

Please let me know your preference at your early convenience, and give me your vacation address, in case a communication is necessary.

With my best personal regards,

Sincerely yours,

Viktor Hamburger
